## ABOUT ME

As a first-class honors graduate in Computer Science from University of Wolverhampton, I have consistently demonstrated a strong commitment to academic excellence and a deep passion for technology. My rigorous academic training has equipped me with a comprehensive understanding of core computer science principles, including software development, data structures, algorithms, and machine learning.

## More about skills

- **Programming**
- **Languages:** Proficient in Python, Java, JavaScript, and C programming, with experience in developing various software solutions.
- **Web Development**
- **Front-End:** Developed web projects using HTML, CSS, and JavaScript, creating responsive and dynamic user interfaces.
- **Back-End:** Utilized Django for backend development, managing databases and implementing server-side logic.
- **Design**
- **Prototyping and UI Design:** Proficient in designing responsive web pages using Figma, with a keen eye for aesthetics and user experience.
- **Data Engineering**
- **Data Engineering:** Experienced in using Python for data engineering tasks, utilizing platforms such as Google Colab and Jupyter Notebooks for data manipulation and analysis.
- **Artificial Intelligence and Machine Learning**
- **Supervised and Unsupervised Learning:** Knowledgeable in various AI/ML models, including regression, Principal Component Analysis (PCA), and clustering.
- **Deep Learning:** Worked with the Keras library for building and training deep learning models.
- **Version Control**
- **Git and GitHub:** Proficient in using Git for version control and GitHub for collaboration and project management. Explore my repositories at [github.com/PunMahesh](https://github.com/PunMahesh).
